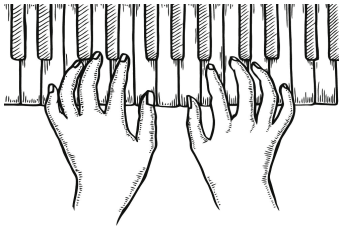
# Do you have Huntington's Disease and limitations with fine motor skills?



The University of Colorado is conducting a pilot study that is researching the rehabilitative power of Neurologic Music Therapy on fine motor skills in people diagnosed with Huntington's Disease.

## You may be eligible to participate if you:

- Have been diagnosed with Huntington's Disease
- Are between 30 and 85 years old
- Have some difficulties with fine motor skills
  (such as buttoning, cutting your food, or typing on a keyboard)

COMIRB #16-2308
