In this document, “Resident” refers to both specialty Residents and subspecialty Fellows.

Policy Purpose

Describes various types of leaves of absence effective on or after 7/1/2022 including:
- Family Medical Leave (FMLA)
  Also referred to as Medical, Parental and Caregiver Leaves
- Vacation
- Sick, Wellbeing and Bereavement
- Jury Duty
- Military

Processing instructions and documentation requirements are included.

Program Directors exercise their discretion when approving requests for most leave types excluding Sick Leave and FMLA. Program Director considerations when approving leaves must include:
- Effects of the leave on other residents and the training program
- Impact of the leave as it applies to the Resident’s satisfactory completion of the program and eligibility to participate in certifying board examinations

All leave requests are to be managed in a manner that is mutually supportive to the Resident and the patient care obligations of the program.

Each program must have a policy or procedures in place to ensure coverage of patient care when a Resident is unable to accomplish patient care responsibilities due to fatigue, illness, healthcare appointment, or any other approved leave.

- Leaves may require an extension of time in the training program for the Resident to satisfy program requirements. Program Directors must provide the Resident with information as to how total leaves will impact their program completion date, their eligibility to participate in examinations by the relevant certifying board.
- If make-up time is required, Resident may be on an off-cycle schedule for the remainder of their training.

\(^4\) Adapted from the Regents of the University of Colorado, Policy 11.E: Leave Policies for Faculty and Staff

\(^5\) See C.R.S. §8-13.3-402(9) for the definition of “Public Health Emergency.”
The Resident is unable to work because the Resident has a health condition that may increase susceptibility to or risk of a communicable illness that is the cause of the public health emergency.

If a Resident does not have 2 weeks of sick leave available, the University will supplement the Resident’s leave balance, as necessary, to allow the Resident to take paid sick leave during a public health emergency.

A Resident may use Public Health Emergency Sick Leave for four weeks after the official termination or suspension of the public health emergency.

Residents are only eligible for supplemental paid sick leave once during the entirety of a public health emergency.
