

Testimonials

"My biggest motivations for participating in research studies were a strong need for a sense of purpose in life, the ability to help others, and to continue learning and growing."

- **JERRIE DANSKY**
B.A. in Communications & Psychology

"Research studies have helped people like me to survive Cancer. An earlier detection will be life-changing for individuals around the globe."

- **BUCKY DILTS**
Former NFL Player

"I am a thyroid and skin cancer survivor with aging macular degeneration. My dad died from Alzheimer's and my mom fell because of overdosing of ambien sleep meds. When I learned that Older Adults are under-represented I was shocked and angry. Now, I'm helping to change the story."

- **DEBRA (DEBBIE) MACKILLOP**
MA in Counseling Psychology
