

# **Veteran participants are needed for a research study on irritability, standing balance and auditory processing, including brain imaging in military Veterans with prior mild traumatic brain injury compared to Veterans without history of brain injury**

## *You may be eligible to participate if you:*

- are a military Veteran
- are between the ages of 18 and 65 years
- able to stand and walk without assistance

## *Research study involvement:*

- all eligible participants are asked to attend a total of one visit for approximately 4.5 hours on the University of Colorado Anschutz Medical Campus
- you will complete surveys on irritability, posttraumatic stress, and pain
- undergo computerized testing of balance, hearing and processing of sound
- undergo brain MR imaging
- compensation provided for participants who complete all testing
