

# More on Dementia: Family History, Genetics, Dementia & Alzheimer's

A webinar presented by the Alzheimer's Association® and CU Alzheimer's and Cognition Center

Is it all in the family? If you don't have a family member with dementia, what's your risk?

Please join the Alzheimer's Association of Colorado and the University of Colorado Alzheimer's and Cognition Center for a program on the role that family history and genetics play in dementia.

Experts will include:

- Dr. Tara Carlisle, MD
- Dr. Emily Forbes, DO
- Marris Lafreniere, MS, CGC (Certified Genetic Counselor)

They will explore how family history and genetics influence risk of developing dementia and the role that these are playing in advancements in diagnostics, treatment, and care.

**Tuesday, May 6  
11:30 a.m. - 1:00 p.m. MT**

**Zoom Webinar  
Click here to register.**

**Call 800.272.3900 for more  
information.**
