

Seeking Older Adults and Participants with Disabilities to Provide User Feedback

The Center for Inclusive Design and Engineering (CIDE), University of Colorado Denver is conducting a research study on the usability of large text features on a mobile device. We need people to try out this functionality during a short usability test.

Are you an older adult aged 65-85 years with mild cognitive impairment?

You may be eligible to participate in our study.

Participation involves:

- Completing a task with or without audio prompting on either a smart phone or tablet.
- Sharing feedback with researchers in a one-on-one setting.

Compensation Provided
