Self-Care

Taking care of oneself is a key piece to **recovery**: when we do good, we feel good, when we do bad, we feel bad, and when we do nothing, nothing happens. Below or on a separate page list a few ways in which you can take care of yourself and things that will help you throughout the maintenance phase of your recovery.

Goals

During and throughout the recovery process it is important to have goals, planning and long-term thinking are one of the keys to success, below or on a separate page list some goals you have for yourself over the next 3, 6, 9, and 12 months and explain what those look like to you.

My Goals:

Coping Skills

Finding ways to positively cope with life on life's terms is a big part of the healing process and a good way to manage and progress in your recovery. Below or on a separate sheet of paper list some coping skills you have and use, and also list some you would like to work on or build upon
