

Website: www.takemedseriously.org

Information on:

- Safe use
- Safe storage
- Safe disposal (Take Back Program location finder)
- Opioids
- Resources

The screenshot shows the homepage of the Take Meds Seriously website. The header includes the logo and navigation links: HOME, THE PROBLEM, SAFE USE, SAFE STORAGE, SAFE DISPOSAL, OPIOIDS, RESOURCES, and ESPAÑOL. The main content area features a large graphic of the number '35' formed by various pills, with a yellow pill bottle tilted above it. Text on the right reads 'PRESCRIPTION DRUG DEATHS EVERY MONTH IN COLORADO'. On the left, three icons represent 'SAFE USE', 'SAFE STORAGE', and 'SAFE DISPOSAL'. A central text box states: 'The abuse of prescription medicine is the fastest growing drug problem in the United States, particularly among teens. Nearly 224,000 Coloradans misuse prescription drugs each year, and 1-in-6 of the state's 12th graders has taken a prescription medicine that was not written for them.' The footer contains logos for the Colorado Department of Health and the Colorado Consortium for Prescription Drug Abuse Prevention, along with social media icons and the website's mission statement.
