

University of Colorado Department of Radiology Diagnostic Radiology Program Aims

Program Aims have been established by the Program Evaluation Committee (PEC).

Program Aims:

1. Recruit exceptional medical students, recognizing that diversity is a key component of outstanding residency programs.
2. Foster a culture of inquiry among residents and faculty by supporting and encouraging collaborative scholarly endeavors.
3. Leverage new and existing educational technologies to optimize resident learning and faculty teaching.
4. Train superb radiologists with the skills necessary to be successful in all future career pursuits.
