

## NRHI SAN & COPTN: Cost and Utilization Training

February 27, 2018

Denver, CO

### Learning Lab Goals:

1. The PF team will be prepared to deliver site-based or peer-to-peer cost and utilization material to TCPi specialty practices -- curriculum to follow
2. The PF work will lead to practices changing cost of care outcomes
3. Strengthen network and peer support as a learning organization
4. Equip the PF team with tactical support to move practices towards outcomes

### Learning Lab Objectives:

1. Prepare the PF team to facilitate the implementation of cost and utilization strategies in a practice setting
2. Understand the importance of reducing unnecessary cost and utilization, and the effect on a practice
3. Identify evidence based strategies to implement in a practice setting
4. Practice skills to continue to develop PF confidence/comfort to have conversations and provide coaching for practices/clinicians to develop and sustain RUU/CoC improved outcomes
