FAST PTO Touch Base

May 27, 2020

Presenter: Bonnie Jortberg
Robyn Wearner

New FAST Program Design

132 primary care practices in Colorado will be randomized to one of two groups:

- Group 1 (Virtual Practice Facilitation [VPF]): receive 6 virtual sessions to improve practice's processes for screening and treating their patients with unhealthy alcohol use.
- Group 2 (Virtual Practice Facilitation + eLearning [VPF +eL]): receive 6 virtual sessions to improve practice's processes for screening and treating their patients with unhealthy alcohol use, **utilizing the 5 eLearning modules developed for this project.**

Will These Virtual Sessions be One-on-One or Group?

- For independent practices, virtual sessions for both groups will be conducted one-on-one.
- For practices enrolled as part of their health system, both groups will be conducted with groups of practices from the same health system.

Why Did We Make This Change?

- Need to be able to work with practices virtually
- Hopefully prevents any further disruptions in the project (i.e, if there is a 2nd wave of COVID-19 in the fall or winter)
