

# **Naloxone Resources for Patients**

**Below is a list of  
Naloxone resources  
for patients**

1

# What is Naloxone?

Naloxone is a life-saving medication that can reverse an overdose from opioids, including heroin, fentanyl, and prescription opioid medications. Often given as a nasal spray, naloxone is safe and easy to use.

# OpiRescue App

There is often time to intervene and **save** someone's life if they overdosed on opioids—that is, if you know how. OpiRescue is a free smartphone app that guides you through the steps you need to take to use naloxone (Narcan) to stop the overdose. That's not all: OpiRescue will help you find naloxone and tell you about local addiction treatment centers. Download the free OpiRescue app from the App Store or Google Play today.
