PF reflections and discussion; implementation  
of eConsults in primary care and mid-fiscal year check in

# Using e-consults

- How are your practices using e-consults to support their patients?
- Are there any lessons learned that you would like to share from your practices' experiences using e-consults?
- Do practices need any additional support to successfully use e-consults?

# Mid fiscal-year check in

- What early successes are practices experiencing with ACC 3.0? Are there important improvements to care that ACC 3.0 is supporting?
- What challenges have practices encountered? Are there any “hiccups” that being experienced? Do the RAEs have the support and capacity to address these “hiccups”?
- How was the practice experience with the practice assessment? Did you as a PF gain insight from the tool to improve your capacity to support practices?
- How has the lift of implementing ACC 3.0 been perceived by practices?
