

Value Based Payment Train-the-Trainer Sessions

Practice facilitators and Regional Accountable Entity (RAE) liaisons are invited to join the CU Practice Innovation Program's series of training sessions to develop their knowledge, confidence, and skills to support engagement in Alternative Payment Model (APM) 2 and other value based payment opportunities. Through 10 sessions, attendees will gain the skills to support changes in culture and care delivery models, along with administrative skills, including data management and budgeting to enable practices to succeed and thrive in value based payment. Though attendance for all 10 sessions is not required, it is highly encouraged. These trainings will be held virtually and include a combination of lectures, role-playing exercises, case studies, workshops, and group activities to prepare RAE practice facilitators to support their practices in the business, financial, and cultural aspects of value based payment programs.

All sessions will be held from 2:30-3:30 p.m. via Zoom at [this link](#). Please contact projectcoordinator@coloradohealthinstitute.org with questions or to receive a direct calendar invite.

Session Date	Topic
April 22, 2024*	Change Management Plan Part 1
