

## 2022-2023 Golden Stethoscope Nomination

Nominated for: Outstanding Docs Preceptor

Name of Nominee Dr. David Klimpl

Dr. K has been an excellent mentor to me this year. He has approached each day with enthusiasm and has provided me with a great deal of support and encouragement. Clinically, he was encouraged my curiosity for medical science while training me from the ground up in history taking and performing physical exams. Beyond this, Dr. K has shown me how to navigate the hospital environment and academic medicine more broadly. On a more personal level, Dr. K has supported me through the challenges that life presents outside of medical training. From the start, it was clear that he was invested in me as a person rather than just as a medical student. The fact that I feel comfortable and excited to begin my LIC year soon is in large part attributable to Dr. K. I consider myself lucky to have him in my corner as I proceed with my training. With that said, I emphatically recommend Dr. Klimpl for this award.
