

Community & Primary Care/Longitudinal Family Medicine (LIC)

Core clinical condition (All adult)	Required responsibilities	Patient setting	Approved alternative methods
Abdominal pain (non-operative adult)	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
	Interpret Tests		
Asthma/COPD (adult)	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Recommend Treatment/Care Plan		
Back Pain (acute/chronic)	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
Cough (acute/chronic)	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
Depression/Anxiety	Participate in History	Outpatient	Assigned reading
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
Diabetes Mellitus	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Recommend Treatment/Care Plan		

Domestic Violence	Participate in History	Outpatient	Assigned reading, module, and case studies
Dysuria (infectious/noninfectious)	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
	Interpret Tests		

Failure to Thrive-Adult	Participate in History	Outpatient	Assigned reading and cases
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
Fatigue	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		

Headache (Acute/Chronic)	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
Hypercholesterolemia	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Recommend Treatment/Care Plan		
Hypertension	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Recommend Treatment/Care Plan		
Joint Pain & Injury & Sprain/Strain	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		

Male Genitourinary Symptoms	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
Obesity-adult	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Recommend Treatment/Care Plan		
Oral Health/Oral Lesion/Dental Exam	Participate in History	Outpatient	Assigned reading; smiles for life additional module
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
Osteoporosis	Recommend Treatment/Care Plan	Outpatient	Assigned reading
	Interpret Tests		
Palliative Care/End of Life Care	Participate in History	Outpatient	Assigned reading
Preventive Medicine/Health Maintenance Adult	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Recommend Treatment/Care Plan		
Rhinitis (infectious/noninfectious)	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
Skin Lesions & Rashes, Skin Exam	Participate in History	Outpatient	Assigned reading; AFP photo quizzes
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		

Smoking Cessation Counseling	Participate in History	Outpatient	Assigned reading
	Recommend Treatment/Care Plan		
Thyroid Disease	Participate in History	Outpatient	Assigned reading
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan		
	Perform Physical Exam		
	Develop Differential Diagnosis		
	Recommend Treatment/Care Plan
