

## Hospitalized Adult Care/ Longitudinal Internal Medicine (LIC)

<b>Core clinical condition (All adult)</b>	<b>Required responsibilities</b>	<b>Patient setting</b>	<b>Approved alternative methods</b>
<b>Interpret ABG (Arterial Blood Gas)</b>	Interpret ABG	Inpatient	Large group guided clinical experience
<b>Anemia in pt</b>	Perform Differential diagnosis	Inpatient	Team Based Learning
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>Interpret Basic Chem</b>	Interpret Basic Metabolic Panel tests	Inpatient	Team Based Learning
<b>CAD (Coronary Artery Disease)</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
<b>Cancer (any) in pt med</b>	Perform History	Inpatient	Large group guided clinical experience, and Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
<b>Interpret Cardiac Enzymes</b>	Interpret Cardiac enzyme tests	Inpatient	Team Based Learning
<b>PE: CV exam in pt (Cardiovascular Exam)</b>	Perform Physical exam	Inpatient	Small group guided clinical experience
<b>Chest Pain</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>Interpret Chest Xray</b>	Interpret Chest x-ray	Inpatient	Large group lecture

<b>CHF (Congestive Heart Failure)</b>	Perform History	Inpatient	Large group guided clinical experience, and Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>COPD - Asthma in pt</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>PE/ DVT (Deep Vein Thrombosis)</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>Dyspnea</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>Edema in pt</b>	Perform History	Inpatient	Small group guided clinical experience
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>Electrolyte disturbance</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		

<b>Interpret EKG</b>	Interpret Electrocardiogram test	Inpatient	Team Based Learning
<b>HIV Infection</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>GI bleed</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>GI jaundice adult in pt</b>	Perform History	Inpatient	Small group guided clinical experience
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>GI liver disease</b>	History	Inpatient	Large group guided clinical experience, and Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>GU renal failure</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>PE: Lung</b>	Perform Lung Physical exam	Inpatient	Small group guided clinical experience

<b>Pneumonia</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests		
<b>Nosocomial Infection</b>	Perform History	Inpatient	Team Based Learning
	Perform Physical Exam		
	Participate in Differential Diagnosis		
	Participate in Treatment/Care plan		
	Interpret Tests
