**NEW VIDEO!**  
**Follow Our Lead - Roll Up Your Sleeves- Get Vaccinated**

Emily Hutson, pictured above, is a physician's assistant at Park Hill Family Health Center in Denver, And, she is jumping for joy after receiving her second dose of COVID-19 vaccine.

Emily and countless other DFM family medicine providers want to encourage us all to take advantage of the vaccines when our opportunity comes around.

So, they took some vaccination selfies and decided to share them and their message with us and the world!

Check out the finished product - available now on the DFM homepage. Just click on the button below to watch the video.

**GIVING**  
 **back.**

**Philanthropic Giving Gains Strength:  
DFM Receives Generous Donations**

The COVID-19 pandemic has negatively affected so many areas and aspects of life - from public health to the economy.

But, one thing that is bucking that trend is - surprisingly - philanthropic support for health care and health care education organizations.

The Department of Family Medicine is a prime example. Despite the pandemic, we've had some generous donors come forward to reinforce our foundation to thrive.

## In The News: DFM Docs Hit The Airwaves

Between public radio and podcasts, our DFM experts are getting noticed. This month, two of our colleagues stepped up to the mic to share their knowledge.

Dr. Kyle Leggott is featured in a Colorado Public Radio story on the hidden tolls of the COVID-19 pandemic.

Click on the button below to read the story and look for the "Listen Now" button on the story page to listen to the complete story.

## Education and Training

Dr. Sean Llewellyn is a second year resident with the University of Colorado Family Medicine Residency.

He just wrapped up a medical journalism elective with a major, national news network.

And, boy, does he have a story to tell. Click on the button below to check out his story of innovation in communication and so much more.

## Something Fun!

The Mars Perseverance Rover is set to touch down on the Red Planet around 1:55 pm our time today!

Fingers crossed for a successful landing and the beginning of the search for fossilized microbial life.

## Professional Development Pro Tip!

Since 2019, the **Women in Leadership Series** has been presented by a number of influential women (mostly from the Anschutz Campus) who have talked about their journeys and how they have balanced career and family while making their way.

The sessions (when in-person) included breakfast and networking time for women from all corners of the campus. Now that we're remote, some of the recent speakers (including our own Regina Richards) have been captured on video and their talks can be viewed [here](#) (scroll all the way down to the bottom of the page).

These sessions are always informative and inspiring. Be on the lookout for the next talk, coming up in April.
