## New Video!

The CU Department of Family Medicine's heralded clinical integrated behavioral health model is the subject of an American Psychiatric Association video debuting this month at their annual conference. Watch and enjoy!

HEALTH POLICY BRIEF

**Protecting Colorado Youth from Gun Violence**

*Jennifer Mijer, MD and Shale L. Wong, MD, MSPH*

EUGENE S. FARLEY, JR. HEALTH POLICY CENTER  
UNIVERSITY OF COLORADO ANSCHUTZ MEDICAL CENTER

April 2019

**KEY MESSAGES**

**Suicide is a leading cause** of death among 10-24 year olds in Colorado

This brief reviews the impact of gun violence on youth in Colorado and across the United States, assessing current gun safety policies to present evidence-based opportunities to strengthen gun safety legislation to protect Colorado youth from suicide, homicide, and accidental gun death:

- Child access prevention and safe storage laws
- Background and licensing laws
- Weapon design safety and restrictions
- Public health research on gun violence and policy efficacy

## Farley Center Policy Brief - Timely Thoughts On A Heartbreaking Issue

The Eugene S. Farley, Jr. Health Policy Center was highlighted in CU Anschutz Today on the release of a gun violence health policy brief on the heels of a deadly school shooting.
