Myra's First Month: Getting To Know You....

Congratulations to our new department chair, Dr. Myra Muramoto, for making it through the fire hose of her first month leading the DFM team!

Aside from endless meetings, Myra had the chance to virtually introduce herself to the department on October 26, 2021, during a special Levitt Distinguished Speaker Series event featuring Drs. Rebecca Etz and Kurt Stange.

If you happened to miss it - don't worry - we will soon be posting videos of both Myra's presentation, a special presentation from former chair, Frank deGruy, and, of course, the Levitt lecture.

State Of The Campus: Chancellor Elliman Says The 'Future Is Brimming With Possibilities'

In case you missed it - check out CU Anschutz Chancellor Don Elliman delivering his annual State of the Campus address.

Campus & Workplace Culture Survey: Survey Open Until November 19, 2021!

Just DO IT!

Make your voice heard and help unlock money for local nonprofits in our neighborhood!

The CU Anschutz Campus and Workplace Culture Survey is live and waiting for you to participate.

A 50% campus participation rate in the survey will send \$15,000.00 to local nonprofit organizations to strengthen our community.

Check your inbox for your invitation to take the survey or simply click on the button below to learn more about this wonderful opportunity.

UPDATES

Community: PEACHnet Attains Rockstar Status!

DFM's [PEACHnet](#) practice-based research network recently received major kudos from the Colorado Department of Public Health and Environment's Office of Suicide Prevention.

The Western slope-based PEACHnet was called out for Rockstar status for their work through the SPUR (Suicide Prevention - Unified Research) project which aims to develop a plan for community and practice-based research around suicide prevention.

Congratulations, PEACHnet!

Rockstar Partner Spotlight!

SPUR (Suicide Prevention - Unified Research) is a research engagement project facilitated by PEACHnet ([Practices Engaged in Achieving Change in Health network](#)), a University of Colorado Department of Family Medicine practice-based research network based in western Colorado, and funded by PCORI ([Patient-Centered Outcomes Research Institute](#)). The purpose is to develop a plan for community and practice-based research around suicide prevention, intervention and postvention that will inform and strengthen efforts to reduce suicide incidence in western Colorado. More specifically, it will help support community organizations' need to evaluate their suicide intervention and prevention activities, connect with other stakeholders doing work in this space across the region, and build capacity for research and evaluation. As part of the SPUR project, representatives from 10 different western Colorado organizations involved in addressing suicide meet monthly for virtual seminars consisting of a research presentation by an outside expert and discussion of their own research and evaluation interests. For more information, go to <https://peachnetspur.learningtimeevents.org/>

THANK YOU SPUR FOR ALL THAT YOU DO!
