Stop COVID-19 Symptoms Fast

With

Antibody Treatment

Did You Recently Test Positive for COVID-19?

Antibody treatment can help keep you out of the hospital and help you feel better faster. The sooner you get treatment after you notice symptoms, the better it works.

How to Get Antibody Treatment

➡️ ### Call a Medical Provider

Call your primary care or urgent care provider **right away**. Tell them you tested positive for COVID-19, when you first had symptoms, and if you have any other health issues.

➡️ ### Get a Referral to a Clinic

If treatment is right for you, the provider will make a referral to the closest clinic that can give you the medication.

ACT FAST!

Antibody treatment works best within the first few days after your symptoms start.

Many Health Plans Will **PAY THE FULL COST OF TREATMENT**
