

# MONOCLONAL ANTIBODY TREATMENT TO PREVENT SEVERE COVID-19

## GUIDE FOR HEALTH CARE PROVIDERS

1

Is my patient eligible?

**Monoclonal antibody treatments are for outpatients with mild to moderate COVID-19 symptoms** and who meet the eligibility criteria, including:

- Not hospitalized or on oxygen due to COVID-19
- High risk of developing severe disease and hospitalization
- Able to receive treatment within 10 days of developing symptoms

Patients who have been vaccinated may receive monoclonal antibody treatment.

2

Is my patient interested?

■ **Counsel patient on monoclonal antibody treatment.**

■ Patient must be provided with the 3-page **EUA Fact Sheet**.

– [EUA Fact Sheet for Casirivimab and Imdevimab \(Regeneron\)](#)

– [EUA Fact Sheet for Bamlanivimab and Etesevimab \(Eli Lilly\)](#)

– [EUA Fact Sheet for Sotrovimab \(GSK\)](#)

■ Find updated [information](#) on benefits and risks of treatment.

3

Where can my patient receive an infusion?

**Options to find an infusion center with your patient:**

■ Choose an infusion center on the [CDPHE website](#) and complete the [online form](#), or

■ Check [Colorado Infusion Center Map](#).

4

How can I arrange treatment?

The referral and ordering of monoclonal antibody treatment varies, depending on your clinic and/or health care system processes.

■ If using the [online CDPHE form](#) to send a referral to the selected infusion center, you will give the patient the infusion center phone number to call and schedule a same- or next-day appointment.

■ If using an infusion center associated with your organization, you may generate the referral and order within your EHR.

■ Assist patient with transportation, if needed. Safest travel is having the person with COVID-19 sit as far from the driver as possible, mask on, windows open. Avoid public transportation if possible.

5

Is there cost for infusion?

• **There is no cost for the medication;** the federal government pays for the medication.

• The **infusion facility fee is covered by Medicare, Medicaid, and commercial insurance.** Patients may be billed co-pays and co-insurance. Self-pay patients may be charged a facility fee for the infusion.

• **If patient is self-pay, ask if the infusion center will charge the patient for infusion.** Patients without insurance who visit a federally-qualified health center for treatment, like Denver Health Pena Urgent Care, would likely receive no bill.

For more information or to find an infusion center near you:  
Call **1-877-332-6585** (English) or **1-877-366-0310** (Spanish),  
or visit [combatcovid.hhs.gov](https://combatcovid.hhs.gov).
