

ARE YOU THE PARENT OF A CHILD BORN WITH MEDICAL COMPLICATIONS?

IS YOUR CHILD BETWEEN 1-3 YEARS OLD?

ARE YOU INTERESTED IN LEARNING MORE ABOUT HOW YOUR CHILD'S LANGUAGE, COGNITIVE, AND MOTOR SKILLS ARE DEVELOPING?

Researchers at the University of Colorado School of Medicine are conducting a study to see how administering developmental tests via telehealth differs from in-person tests.

If your child participates and receives a full in-person developmental assessment, you will have the opportunity to receive detailed feedback on their development from trained clinicians.

If your child already has a recent assessment completed you may still participate in the virtual portion of the study.

Participants will receive an Amazon gift card as compensation for the time to participate. Depending on level of participation, the range of gift card amounts will be \$40-\$115.

Recruitment for this study is now OPEN!

If you have questions or would like to enroll your child, please contact us:
