

### OVERVIEW

The **Brinker Award for Scientific Distinction in Clinical Research** will be presented to a clinical researcher who has advanced new approaches for prevention, detection, diagnosis and treatment that have paved the way for new clinical and therapeutic applications and/or practice changing, patient-focused care for breast cancer. Please describe the research merits of the nominee, as well as any other information to further support their nomination, including leadership, mentorship and/or advocacy in the field.

### **INSTRUCTIONS:**

*Please complete each section of this form. Return your completed form with the nominee's biosketch to [SSPrograms@komen.org](mailto:SSPrograms@komen.org) no later than **May 12, 2025, by 12 p.m. CST.***

*If copying and pasting into this form, please use only plain text characters and review your form carefully prior to submission. All information must be submitted within the word limits provided for each section; no additional or supplementary documents will be considered.*

### NOMINATOR INFORMATION

First Name:	Middle Initial(s):	Last Name:	Degree(s):
Position Title(s): <i>(one per line)</i>			
Institution: <i>(Name)</i>			
Email:		Phone: <i>(direct line)</i>	

### NOMINEE INFORMATION

First Name:	Middle Initial(s):	Last Name:	Degree(s):
Position Title(s): <i>(one per line)</i>			
Institution: <i>(Name)</i>			
Email:		Phone: <i>(direct line)</i>	

**1. BREAST CANCER RESEARCH ACCOMPLISHMENTS**

Summarize the nominee's overall work that is innovative and groundbreaking. This description should demonstrate how this work has shifted existing and/or created new paradigms by advancing new clinical and therapeutic approaches and applications to enhance breast cancer care. This work should also demonstrate the established track record of independent and impactful research for which the nominee is recognized as a national thought leader beyond their specific subfield of expertise. In support of each scientific contribution, limit references to landmark, peer-reviewed papers. (No more than 1,000 words)

## 2. OTHER CONTRIBUTIONS TO THE FIELD

For additional consideration, describe any contributions beyond the nominee's scientific accomplishments that demonstrate their commitment to the breast cancer field, including leadership, mentorship and/or advocacy efforts. These efforts can include leadership positions in internal and external programs and organizations that impact their initiatives, mentorship of trainees at any level to advance their professional careers and provide career development opportunities, and advocacy work within the breast cancer community. (No more than 500 words)

Please return your completed nomination form with the nominee's biosketch to
