### **Guidelines for Teaching Reflection Papers (2-4 pages)**

Papers should be double-spaced and in 12 font. Proper grammar, spelling and punctuation are expected. Although the guidelines address what may be in common for all students, you are free to add anything that may be unique to you and your learning style. Please make an attempt to respond to each of the following questions. You do not need to follow any specific plan, just include your thoughts where they fit best for your reflection on this experience.

1. Name and describe the course you served as a TA
  - \* Who was the main audience for the course?
  - \* What specifically were your role?
  
2. What did you want to get out of this student teaching experience?
  - \* Did the experience meet your expectations?
  - \* If so, how did that occur?
  - \* If not, what wasn't fulfilled; how could that expectation have been met?
  
3. What did you learn that you didn't expect?
  - \*about teaching?
  - \*about learning?
  - \*about students?
  
4. What did you learn about yourself?
  - \*as a teacher?
  - \*as a role model?
  - \* as a graduate student?
  
5. How were you changed, or shaped, from this experience (could be positive or negative or not changed)?
  
6. What should we do to make this experience more meaningful to future MSMHA students?
  
  
6. Would you have taught anything differently?
