GRAND ROUNDS: MODERATED PANEL

"Chasing COVID: Rapid Changes in Diagnostics and Therapeutics"

Wednesday June 10th, 2020, 9:00am-10:00am
Join Webinar: https://ucdenver.zoom.us/j/98754613844

Diagnostics: Antibody Testing for COVID-19
Brian Montague, DO
Dr. Brian Montague is an Associate Professor of Medicine in the Division of Infectious Disease. He serves as Medical Director for Occupational Health for UC Denver as well as infectious disease consultant to Employee Health for UC Health Anschutz. He is currently working on a multisite project for COVID-19 antibody screening for health workers and first responders and has been a key member of the effort to develop...

Therapeutics: Clinical Trials for COVID-19
Adit Ginde, MD, MPH
Dr. Adit Ginde is Professor and Vice Chair for Research in the Department of Emergency Medicine. His research focuses on epidemiological and clinical trials in the acute care setting, with a particular focus on early care of critically ill and injured patients. He is currently leading multiple federally-funded clinical trials evaluating potential therapies to improve outcomes in patients with COVID in the emergency department, inpatient, and outpatient settings.

Senior Scientist Moderator
Emmy Betz, MD, MPH
Dr. Emmy Betz is an Associate Professor of Emergency Medicine. She conducts translational research focused on the development and implementation of patient-centered interventions to prevent injuries and promote healthy aging. She is Deputy Director of the Program for Injury Prevention, Research, and Education at the Colorado School of Public Health and a national leader in messaging around sensitive public health topics, including COVID-19.
