

If you are a U.S. trained physician with ABMS certification in internal medicine, you may be eligible to practice under the USA-certified class in Canada. Contact us for more details!

## What will you do?

Provide expert inpatient care across a wide range of cases, from managing acute illnesses to complex chronic conditions.

Work in collaborative, multi-disciplinary teams to tackle challenging cases and make a real impact on patients' lives.

## What sets us apart?

**Serene Environment:** Experience year-round outdoor adventures like skiing, hiking, swimming, and visiting local wineries in a region celebrated for its natural beauty.

**Highly Competitive Compensation:** We offer guaranteed income through an APP clinical service contract, plus recruitment bonuses, relocation support, retention payments, and enhanced Rural Continuing Medical Education (RCME) funding where applicable.

**Diverse Patient Population:** In this role, you will serve a richly diverse patient population, including Indigenous communities and new Canadians.

*Connect with us today to discuss the benefits of living, working, and playing where others only vacation in the southern interior of British Columbia, Canada!*
