Dr. Albert,

Thank you for organizing the DOM Happy Hour! It was great to connect with everyone and not necessarily talk about shop. As a gracious host - thanks for providing the "beverages" as well :) Let's do it again soon!

My best,

Holli Keyser
Homer,

Thank you for being so nimble and prompt to upload all our new virtual meeting recordings to the DOM's YouTube Channel, including the added video editing work. I realize this is more work than usual, and you've gone above and beyond to assist! I appreciate all your work in this space as we are all learning to evolve in this new virtual environment.

Thank you,

Holli Keyser
Thank you!

Marisha,

We wanted to thank you for your commitment to us in the DHM during these challenging times. Thank you for advocating for our safety and ensuring we have PPE to feel safe caring for patients, for being consistent about communication to us in the group, and for supporting our group with the little things like snacks!

With gratitude,

Your DHM family
Judy started with the Pulmonary division in August and has hit the ground running. She has picked up additional duties as we have lost several key people since she started with us. Judy has picked up the slack without complaint, although she is one of the newest members of our division. Not only has she exhibited a great work ethic and positive attitude in general, she has gone above and beyond her duties during COVID and has done a great job of keeping our division afloat financially and administratively. She has worked long hours from home and her dedication is so appreciated. I honestly believe that we would not be in the shape we are in throughout the COVID pandemic without her efforts.

We are so lucky to have her as a part of our team!
Thank you!

Nancy Miller

Nancy,

I cannot begin to explain how valuable and appreciated you are to our team. You keep most everything afloat and always do so with charm. Thank you so much for everything you do with mentoring, scheduling, and being a true team player. We wouldn't be the same without you!

My deepest appreciation,

Elle Herner
Mike,

I want to thank you for your flexibility, thoughtfulness and helpfulness during the week that I was on the palliative care service. One specific example was a difficult day when the technology Gods were not shining upon us and you figured out how to gear up and to get an iPad into a COVID+ patient's room and then helped him use it with the interpreter. You just did it. At the end of the day our team talks about 'one good thing' that happened to us that day and for Hillary and I it was you.

Thank you!

Katie Morrison
