

Quality and Safety Symposium 2017

The Department of Medicine Quality and Patient Safety team conducted a Quality and Safety Symposium held at the Bruce Schroffell Conference Center last April 5th from 4-7 pm.

The winners of last year's Shark Tank gave a project update on DVT, CLABSI, and PICC lines.

Distinguished DOM faculty panelists joined the discussion on Care Innovations in the Delivery of High Value Care, which included challenges, and opportunities presented to Academic Medical Centers in delivering care innovations that lead to high value care and how Academic Medical Centers can achieve this goal incorporating its mission of clinical care, education, and research. Approximately 50 people participated in the event.

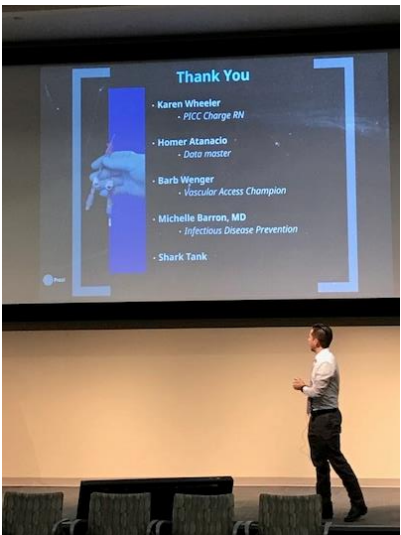

Distinguished DOM Faculty Panelists:

- Kathleen Barnes: Head, Division of Biomedical Informatics and Personalized Medicine
- Jeff Glasheen: Chief Quality Officer, University of Colorado Hospital
- Cari Levy: Associate Professor of Medicine, Division of Health Care Policy and Research
- Duane Pearson: Associate Professor of Medicine, Division of Rheumatology
- John Rumsfeld: Chief Innovations Officer, American College of Cardiology

The discussion was followed by a poster session and reception at the Schroffell Conference Center on the ground floor of AIP2 featuring Outstanding Poster Award Presentation. Top 5 abstracts were selected from the 27 submitted abstracts.

Continuous Renal Replacement Therapy Dosing in Critically Ill Patients	Benjamin Griffin	Fellow
Let's be smart about improving pain: a patient controlled analgesia (PCA) safety checklist quality improvement (QI) project	Jeanne Lee	Faculty
