

**A better treatment
for tomorrow
needs your
help today!**

FENhance Study

Help create a brighter future for people living with relapsing multiple sclerosis (RMS) by participating in the ongoing FENhance Study—testing an innovative treatment to determine its potential to both reduce MS disability and relapses as well as slow the progression of the disease.

RMS

FENhance Study

Designed around you, the trial seeks to advance treatment for RMS. We are committed to your care—together we can make a positive impact on the RMS community. Today, tomorrow, together.

The study is now enrolling. You may qualify if:

- You are between 18 and 55 years old
- You have been diagnosed with RMS
