

# Do you have Parkinson's Disease and limitations with fine motor skills?

The University of Colorado is conducting a study that is researching the rehabilitative power of music on fine motor skills by comparing Music Therapy versus regular Occupational Therapy in people diagnosed with Parkinson's Disease.

## You may be eligible to participate if you:

- Have been diagnosed with Parkinson's Disease
- Are between 45 and 85 years old
- Have some difficulties with fine motor skills  
(such as buttoning, cutting your food, or typing on a keyboard)

COMIRB # 16-2308

COMIRB

APPROVED

For Use

12-Mar-2019
