

The 6th Annual Glenn Kindt Research Symposium

June 18th, 2024

The 6th Annual Glenn Kindt Research Symposium was held in the Department of Neurosurgery on June 18th, 2024. The symposium honors Dr. Kindt, the Chair of the Department of Neurosurgery (1981-2000). This year's event featured the keynote speaker, Doris Wang, MD, PhD, from the University of California, San Francisco (<https://profiles.ucsf.edu/doris.wang>). The title of her talk was "Understanding the neural control of Gait in Parkinson's Disease." Six short talks and 19 poster presentations highlighted the cutting-edge research in the department.
