

Basic Project Information

Title of Your Proposal

PI

Sponsor

Funding Opportunity Announcement

Project Dates

to

Will there be subawards or paid external collaborations on your project?

Yes

No

If yes, please list and briefly describe.

Project Location and Protocols

1 Primary site location address where 50% or more of the project will take place:

Building

Floor or Room

2 Will 50% or more of the project take place on-campus, or off-campus?

On-Campus

Off-Campus

3 Will human subjects be included as part of the project?

Yes

No

Will human tissue or data be part of the project?

Yes

No

Protocol Number (or pending)

Most Recent Approval Date

4 Will the project include a clinical trial?

Yes

No

If yes, will there be multiple sites?

Yes

No

5 Will animals be used as part of the project?

Yes

No

Protocol Number (or pending)

Most Recent Approval Date

6 Are there biosafety considerations?

Yes

No

If yes, check all that apply.

Recombinant DNA

Infectious Agents

Select Agents

Other

Authorization number and date

7	Are there radiation considerations?	Yes	No
	Authorization number and date		

8	Are there chemical safety considerations?	Yes	No
	If yes, check all that apply.		
	DHS Chemicals of Interest	DEA Controlled Substances	
	Toxic Gases	Carcinogenic Respirable Particulates	
	Explosives	Perchloric Acid	
	Peroxide Formers	Other	

9	Does the research project use any agent or toxin that is considered Dual Use Research of Concern (DURC)?	Yes	No
---	--	-----	----

10	Export Control		
	Yes	No	
	Will the project require any export controlled information to be received by CU Denver, or is the Program Announcement or Request for Proposals designated as "Export Controlled"?		
	Is the project participation (faculty, student, other) restricted based on country of origin or citizenship?		
	Will the sponsor have the right to approve or restrict the publications or other disclosure of the research results?		
	Will the project include collaboration with a foreign organization?		
	Will the project involve the shipment of equipment, software, data or biological materials to a foreign country?		
	Will the project require the use of another party's proprietary information or materials?		

The PI is responsible for ensuring that all individuals performing work that directly impacts the proposed project scope of work have a current Conflict of Interest Disclosure on file with the UCD COI office.
