

Seeds of Hope

Fertility Preservation Fundraising Tennis Tournament

Fertility Preservation and
Reproductive Late Effects Program
UNIVERSITY OF COLORADO ANSCHUTZ MEDICAL CAMPUS

CLUB
GREENWOOD

Dear Colleagues,

This is **Leslie Appiah, MD**, and I'm reaching out on behalf of **CU Seeds of Hope: Fertility Preservation Fundraising Tennis Tournament**.

The **University of Colorado Fertility Preservation Program** will be hosting its **first-ever charity tennis tournament on July 25-26, 2025, at Club Greenwood Tennis**, and we're looking for generous partners to help make this event a success.

The **CU Fertility Preservation Program** is the only program of its kind in the region, providing fertility preservation services and education to individuals of all ages facing cancer or other medical conditions that impact fertility. Our mission is to provide a brighter future for patients and their families by keeping their reproductive options open and accessible.

A cancer diagnosis is often unexpected, and patients are rarely prepared for the **financial burden** that comes with it—especially when fertility preservation is **not typically covered by insurance**. This adds an extra layer of stress for patients and their families.

By **sponsoring or donating to our event**, you can directly impact the lives of children, adolescents, and young adults whose medical treatments put their fertility at risk. This event will bring together the medical community from **University of Colorado Hospital, Children's Hospital Colorado, and beyond**, raising awareness of the importance of fertility preservation for cancer survivors.

Sponsorship Opportunities

We are offering **four sponsorship levels**, each with valuable benefits:

- **\$500 – Bronze:** Recognition on event materials and social media
- **\$1,000 – Silver:** Above benefits + recognition on website + team entry into the tournament

- **\$2,500 – Gold:** Above benefits + 2 team entries in the tournament + verbal acknowledgment during the event
- **\$5,000 – Platinum:** Above benefits + premium name/logo placement on event materials, website and social media + 2 team entries into the tournament + special recognition during the event

Your support will help expand our fertility preservation offerings, including new and advanced techniques for **pre-pubertal children** who cannot utilize traditional sperm, egg, or embryo freezing. It will also contribute to cutting-edge research, ensuring the **most reliable and advanced fertility preservation options** for future patients.

If you are **interested in donating** any amount to our event, please use the link included below!

If you are **interested in becoming a sponsor**, please email seedsofhope@cuanschutz.edu for more information!

If you are **interested in registering for our tournament**, please email seedsofhope@cuanschutz.edu more details to come!

I'd be happy to chat at your convenience. Thank you so much for your time and consideration!

Sincerely,

Leslie Appiah, MD
