

Site Language Option

Patients are now able to update their language preference directly in the Patient Portal.

After receiving an email and/or SMS from pIQ, the patient can utilize the Site Language Drop Down from the top right hand corner to update their language preference.

Update Site Language from Anywhere in PatientIQ

Language Preference

Language preference will be remembered for 1 calendar year from the selection. The Patient will not be required to enter their language preference when completing tasks within a year from date of selection.

****Some forms not available translation will appear in English.***

If you have questions about your assigned tasks, please contact your physician or healthcare team.
