THE CU DEPARTMENT OF PATHOLOGY GRAND ROUNDS

Sponsored by the University of Colorado School of Medicine Office of Continuing Medical Education

Harikrishna Nakshatri, BVSc., PhD

Marian J. Morrison Professor of
Breast Cancer Research
Departments of Surgery and of
Biochemistry and Molecular Biology
Indiana University SOM

"Ecosystem of the normal breast and breast cancer: from biology to treatment"

Friday ~ November 13, 2026
12:00-1:00 pm

Hensel Phelps Auditorium West, Room 1006

Dr. Nakshatri's Learning Objectives:

1. **To demonstrate genetic ancestry dependent variability in the normal breast biology**
2. **To illustrate changes in the normal breast during pregnancy, lactation, and involution and how that may impact pregnancy-associated breast cancers**
3. **To show how latest technologies can be used to determine cell-of-origin of breast cancer**
4. **A major take home message- "without knowing what is normal, it is hard decipher what is abnormal"**
5. **To emphasize on the need to use samples from diverse population for biomarker discovery**

All of the planners, faculty, or individuals in control of content for this educational activity have no relevant financial relationships to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.

The University of Colorado School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Colorado School of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™.
Physicians should claim only the credit commensurate with the extent of their participation in the activity.
CME certificates are distributed one time per year to learners at the end of the academic year.
