

# Do you have an infant or toddler between the ages of 16 to 30 months old?

PI: Kristin Uhler, PhD  
CU Anschutz Medical Campus  
Building 500  
SPOT Laboratory

## PURPOSE

The research study plans to learn how infants and toddlers respond to speech sounds.

## ELIGIBILITY

- Infant between the ages of 16 and 30 months
- Have normal hearing OR have been diagnosed with bilateral sensorineural hearing loss
- English as the primary language spoken at home

To learn about the research experience from a previous participant, scan the QR code below

## TIME COMMITMENT

The study can be completed in typically two, 1-hour visits. Additional visits may be needed based on infant/toddler fatigue or interest in the task.

## PARTICIPANT COMPENSATION

- Participants will be compensated \$40 for each study visit in cash.
- Transportation to and from Anschutz Medical Campus can be provided upon request
