

American College of Surgeons 2019: CU Resident Presentations

Presentation Details			
Name	Session Information	Title	Date/Time/Location
Matthew Bartley	SF102 Cardiac Surgery I	Lipoprotein A Fails to Inhibit Plasminogen Activation & Fibrinolysis in a Whole Blood Model	10/28/19 9:45 – 11:15 AM
Lindel Dewberry	SP105 e-Posters I	Treatment of Pediatric Empyemas: Challenges in Changing Practice Patterns	10/28/19 9:45 – 11:15 AM
Christian Ghincea	SF102 Cardiac Surgery I	Female Sex is Associated with Worse Outcomes after Aortic Arch Surgery	10/28/19 9:45 – 11:15 AM
Alexandra Kovar	SF113 Trauma/Burn/Critical Care I	Evaluation of the Pre-Hospital Massive Transfusion Activation Scoring System, Extremity-Mechanism-Shock Index-GCS (EMS-G) with TQIP Data	10/28/19 11:30 – 1:00 PM
Abhinav Singh	SF115 Health Services Research II	Accurate Parsimonious Prediction of Postoperative Discharge Destination	10/28/19 11:30 – 1:00 PM
Alex Schulick	AF112 Surgical Oncology	A New Angle on Pancreatic Cancer: Is Thromboelastography Superior to CA19-9 as a Prognostic Tool to Predict Early Recurrence Following Pancreatectomy?	10/28/19 11:30 – 1:00 PM
Julia Coleman	SI102	Sir William M Bayliss: a Medical School Drop-Out Who Became the Founder of Modern Physiology	10/28/19 12:00 – 3:00 PM
Rashikh Choudhury	SF116 Bariatric/Foregut I	Gastric Bypass Superior to Sleeve Gastrectomy for Obese Patients with End Stage Renal Disease: A Decision Analysis	10/28/19 2:30 – 4:00 PM
Rashikh Choudhury	SF218 Transplantation & Tissue Engineering II	Serial Transverse Enteroplasty Increases Rates of Enteral Autonomy & Improves Long-Term Survival For Pediatric Small Bowel Syndrome Patients: A Markov Decision Analysis	10/29/19 12:45 – 2:15 PM
Jason Samuels	SP220 e-Posters IV	REBOA – Interest is Wide but Use Remains Limited	10/29/19 2:30 – 4:00 PM
Lindel Dewberry	SF228 – General Surgery V	CNP-MiR146a Decreases Inflammation in a Murine DSS Colitis Model	10/29/19 4:15 – 5:45 PM
Alexandra Kovar	SF226 Breast II	The Waiting Game: How Long Are Breast Cancer Patients Waiting for Definitive Diagnosis and Treatment?	10/29/19 4:15 – 5:45 PM
Julia Coleman	SF313 Trauma/Burn/Critical Care VII	Elucidating the Molecular Mechanisms of Fibrinolytic Shutdown after Severe Injury: the Role of Thrombin Activatable Fibrinolysis Inhibitor	10/30/19 9:45 – 11:15 AM
Sarah Hilton	SF308 General Surgery VII	Nanosilk Reduces Pressure Ulcer Formation	10/30/19 9:45 – 11:15 AM
