

18th Annual Academic Surgical Congress: CU Residents Presentations

Tuesday 2/7/23	Wednesday 2/8/23	Thursday 2/9/23
Nicole Mott 7:30 AM – 9:30 AM	Shahyan Bakhtiyar 7:30 AM – 9:30 AM	Otto Thielen 7:30 AM – 9:30 AM
Maddy Thomas 7:30 AM – 9:30 AM	Terry “TJ” Schaid 2:45 PM – 4:45 PM	Lauren Gallagher 7:30 AM – 9:30AM
Sudheer Vemuru 7:30 AM – 9:30 AM	Adam Dyas 2:45 PM – 4:45 PM	Alyssa Vaughn 7:30 AM – 9:30AM
Adam Dyas 7:30AM – 9:30 AM	Adam Carroll 2:45 PM – 4:45 PM	Adam Dyas 1:40 PM – 3:40 PM
Morgan Hallas 4 PM – 5:30 PM		Christina Stuart 1:40 PM – 3:40 PM
Shahyan Bakhtiyar 4 PM – 5:30 PM		
Morgan Hallas 5:30 PM – 6:30PM		

Presentation Details			
Name	Session Information	Title	Date and Time
Nicole Mott	Clinical/ Outcomes Breast Quickshot Session	Avoiding Overtreatment of Women ≥ 70 with Early Breast Cancer: A Provider Deimplementation Strategy.	February 7 th , 2023 7:30 AM – 9:30 AM
Maddy Thomas	Clinical/ Outcomes Breast Quickshot Session	Multi-level Factors Drive use of Sentinel Lymph Node Biopsy in Older Women with Early Breast Cancer.	February 7 th , 2023 7:30 AM – 9:30 AM
Sudheer Vemuru	Clinical/ Outcomes Breast Quickshot Session	Factors associated with trends in chest physical wellbeing after breast surgery.	February 7 th , 2023 7:30 AM – 9:30 AM
Adam Dyas	General Surgery Clinical/Outcomes: General Surgery Quickshot Session I	Estimation of Observed to Expected Postoperative Infection Ratios Using Electronic Health Record.	February 7 th , 2023 7:30 AM – 9:30 AM
Morgan Hallas	Clinical/Outcomes Plenary	Toward Personalized Omics of Shock: A Potential Role for Fatty Acid Oxidation and Polyamines.	February 7 th , 2023 5:30 PM – 6:30 PM
Shahyan Bakhtiyar	Clinical/Outcomes: Mixed Oral Session II	Can Left Ventricular Assist Devices Substitute for Marginal Donor Heart Allografts?	February 7 th , 2023 4 PM – 5:30 PM
Morgan Hallas	AAS Resident/Fellow Competition Quickshot Session	Toward Personalized Omics of Shock: A Potential Role for Fatty Acid Oxidation and Polyamines.	February 7 th , 2023 5:30 PM – 6:30 PM
Shahyan Bakhtiyar	Clinical/Outcomes: Mixed Oral Session II	Textbook Outcome in Heart Transplantation: A New Quality Metric for the Modern Era.	February 8 th , 2023 7:30 AM – 9:30 AM
Terry “TJ” Schaid	Integrated Quick Shot Sessions II Basic Science: Trauma/Critical Care Quickshot Session	S1P is Decreased in Post-injury ARDS and Repletion may Mitigate Metabolopathy of Hemorrhagic Shock.	February 8 th , 2023 2:45 PM – 4:45 PM
Adam Dyas	Clinical/Outcomes: Cardiothoracic Quickshot Session I	Emergency Thoracic Surgery Patients Have Worse Risk-Adjusted Outcomes Than Non-Emergency Patients.	February 8 th , 2023 2:45 PM – 4:45 PM
Adam Carroll	Clinical/ Outcomes: Cardiothoracic Quickshot Session I	A Minimally Invasive Hybrid Approach and Algorithm for Aberrant Subclavian and Kommerell Diverticulum.	February 8 th , 2023 2:45 – 4:45 PM

Adam Carroll	Clinical/ Outcomes: Mixed Quickshot Session I	Stable ESRD Patients have Superior Outcomes to Advanced Stage CKD Patients in Cardiac Surgery.	February 8 th , 2023 2:45 PM – 4:45 PM
Otto Thielen	Basic Science: Mixed Oral Session II	Balancing Inflammation and Coagulation: The Proteomic Signature of Protein C After Trauma.	February 9 th , 2023 7:30 AM – 9:30 AM
Lauren Gallagher	Basic Science: Pediatrics Oral Session II	Integrated Analysis of miRNA-mRNA Interaction in a Mouse Model of Intrauterine Growth Restriction.	February 9 th , 2023 7:30 AM – 9:30 AM
Alyssa Vaughn	Clinical/ Outcomes: Pediatrics Oral Sessions III	Practice Patterns in Management of Pediatric Iliofemoral Arterial Thrombosis.	February 9 th , 2023 7:30 AM – 9:30 AM
Alyssa Vaughn	Clinical/ Outcomes: Pediatrics Oral Session IV	Surgical Necrotizing Enterocolitis – Can We Predict the Need for Gastrostomy Tube Placement?	February 9 th , 2023 7:30 AM – 9:30 AM
Adam Dyas	Clinical/Outcomes: General Surgery/Cross Disciplinary Quickshot Session	Work Relative Value Unit's Associations with Patient Preoperative Characteristics and Surgical Outcomes.	February 9 th , 2023 1:40 PM – 3:40 PM
Christina Stuart	Clinical/Outcomes: Hepatopancreatobiliary Quickshot Session II	Pulmonary Metastasectomy is Associated with Survival After Lung-Only Recurrence in Pancreatic Cancer.	February 9 th , 2023 1:40 PM – 3:40 PM
