

PGY-4 Elective Experience

The General Surgery Residency Program provides a 4th year elective experience, sponsored by the Department of Surgery, to spend a rotation in an out-of-state setting or to obtain 4-6 weeks of additional experience in a specialty of their choice, either at University of Colorado Hospital or at another institution. The department pays for resident salary and benefits, which is critical support for this program.

The residency program supports University of Colorado Surgical residents at the PGY-4 level and complies with RRC for Surgery and Board of Surgery guidelines for surgical residency international elective applications.

Planned experiences for electives for this academic year (2017-2018):
