

In order to prioritize surgery case scheduling during the COVID19 pandemic an addition has been made to the case scheduling workflow. You will now see an additional form in the scheduling tree:

When scheduling a case with a classification of anything other than Emergent, it will be required that this form be completed. Here is the warning that will fire:

The case will return to the depot. Click on **COVID-19 Sched** and complete the form. **Please provide details relating to the clinical indications for the case.**
