

COVID-19 Hospital Management

To address Colorado's evolving COVID-19 response, CU Anschutz School of Medicine's weekly ID Case Conference is transforming into a series that will engage infectious disease providers, hospitalists, infection control staff, and medical students around the state in literature review, case discussion, and sharing of organizational response to SARS-CoV-2.

7:30 AM – 8:30 AM every *Wednesday* • April 1st, 2020 – May 27th, 2020

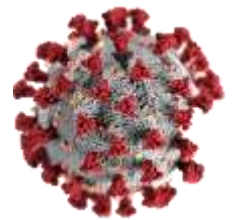

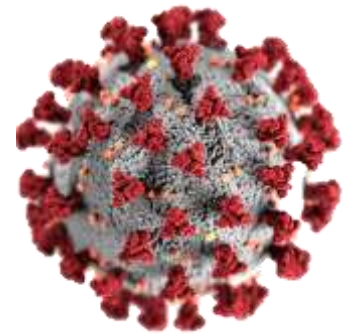

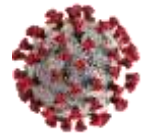

► *SPEAKERS & TOPICS*

This series will include speakers from:

CU Anschutz, Denver Health, Kaiser, Rocky Mountain Infectious Diseases, and many more

April 8th: Experience from the field, convalescent plasma, UCH patient summary, literature review on steroids, IL6 blockers, plasma, and remdesivir, Q&A

April 15th: Discharge criteria and support, SNFs, literature review on discharge findings, Q&A

► *WHO SHOULD ATTEND*

Infectious disease (ID) providers, hospitalists, and infection control staff around Colorado
