### Job description

Do you want to use your doctorate in the way it was meant to be used? Are you tired of working in group health environments where you have to see multiple patients at one time? Are you someone who wants to work with patient's one-on-one and establish actual results with your treatment plans? Then we have the perfect position for you! We are currently looking for a talented **Physical Therapist** to join the Advanced Injury Treatment Center team.

At Advanced Injury Treatment Center (AITC), our passion is providing superior, streamlined care for auto accident victims. Our physical therapists work alongside physicians, chiropractors, and massage therapists as a comprehensive treatment team for patients injured in an auto accident. **We do not take group health plans, so our reimbursement rates allow us to pay far above industry average for one-on-one care.**

Our physical therapists must be confident on a computer and have high-quality writing skills as our one-on-one care must be thoroughly documented in order for patients to prove their injuries to a car insurance company.

**One-on-one, hands-on care** is the cornerstone to our treatment philosophy and we get real results with the vast majority of our patients.

Because we are a **fast-growing company** and you'll be part of our company's foundation, there will be **opportunities within our team** for growth into a **leadership role**. Just in the past 3 years, we have opened 4 new clinics and plan to continue opening clinics across the front range for the foreseeable future. We'd love for you to be a part of our growth.

Your role will include the management of:

- Treating patients one at a time.
- Thoroughly documenting patient care and their hardships during treatment.
- Creating and maintaining a 5-star level service environment.

Job Type: Full-time

**Pay: \$85,000.00 - \$105,000.00 per year**

Benefits:

- 401(k)
- Continuing education credits
- Dental insurance
- Flexible schedule
- Health insurance
- Paid time off
- Vision insurance

Healthcare setting:

- Outpatient
- Private practice
- Rehabilitation center

Schedule:

- Monday to Thursday (10 hour days)
