Application Process Open now until Feb 28, 2026.

Seeking a private, in-home full-time (or 2 part-time) Physical Therapist (PT) or graduate student in PT to serve as a caregiver for a 23-year-old male CU Boulder student (Biochemistry/Integrated Physiology major) recovering from a recent leg amputation (external hemipelvectomy) due to bone cancer.

Tasks include supporting mobility and gait training, assisting with safe transfers, some meal prep, and companionship. This is a supportive coach role, not a traditional caregiving role.

Ideal candidates have a background in kinesiology or sports medicine, have excellent listening skills, are male and able to safely lift and support approximately 120 lbs, due to the nature of care required.

Start date: Approx. Mid-February

Compensation: Generous

Status: Interviewing immediately
