

Physical Therapist - Pelvic & Sports/Ortho Positions OPEN (Cash-based)

[Up and Running Physical Therapy \(website\)](#)

2700 S College Ave, Fort Collins, CO 80525

\$76,960 - \$110,000 a year - Part-time, Full-time

Opportunities/Positions Available (2):

- 1) Pelvic Health Physical Therapist
- 2) Sports/Ortho Physical Therapist

New grads are welcome to apply!

- 60-min treatment sessions
- ~7 patients per day
- bonus structure
- ability to make your own schedule
- co-mentorship from a small team of passionate PTs
- 100% of your caseload will be active adults, runners, and athletes via direct access
- other benefits (ie. PTO, con ed, health insurance, etc)
- minimal documentation requirements

Just before you rush to apply, take a look at the list below and ask yourself honestly if any of these describe your situation right now:

- Tired of seeing 12-20+ patients per day? Do you treat active people for a full hour?
- Do you wish you had more time to spend with your patients instead of dealing with insurance and corporate demands?
- Are you starting to feel burnt out already – after working so hard for your degree?
- Do want more time with patients to master your craft?
- Are you truly passionate about sports physical therapy and making a difference in people's lives...and just wish you had the time and freedom to make a difference?
- Are you looking to take a huge leap in your clinical skills and expand your knowledge in sports physical therapy?
- Are you a motivated clinician, but currently working in a clinic that does not inspire you?
- Do you want to work in a fun environment where people appreciate and value your presence?
- Do you think you might be the perfect fit for Up and Running Physical Therapy?

- If you found yourself saying YES to one or more of those questions, we might just have the position you're looking for...

About Up and Running Physical Therapy – Our Story

- Up and Running PT was founded in 2018, with a mission to help runners, active adults, and athletes in the Fort Collins area get back to the activities they enjoy without surgery, unnecessary time off, or relying on pain medication. We have made a name for ourselves locally, especially in the endurance athlete realm. With that being said, 100% of our patient population are active individuals who are having some type of pain or discomfort and are motivated to get back to exercising pain-free. Once patients are pain-free and back to exercising pain-free we also offer strength & conditioning/performance services to help them remain strong and pain-free in a safe and welcoming environment.
- Up and Running Physical Therapy is an out-of-network physical therapy clinic that offers physical therapy, personal run coaching, and sports performance services. By being out-of-network we can treat the patient as a whole and provide more optimal care for our patients. That means we work for the patient and not the insurance companies. We are committed to treating the cause of pain and not just the symptoms.
- Sports Performance is about living your best life, for our clients and ourselves. It is very important to us to provide our staff with a lifestyle they are happy to have. One in which they don't feel overworked, drowning in paperwork, or rushed for treatment time with their clients so they can simply focus on results.
- Life is short... don't sacrifice your happiness by settling for a job that does not inspire you or encourage and support your growth.

What is so unique about this position? You get to...

- See a reasonable caseload of up to 6-8 clients per day, so that you go home feeling energized and happy about the work you did, instead of mentally or physically drained.
- Focus on your client – and spend at least 45 minutes per session (up to an hour) with them one-on-one uninterrupted. No double bookings – ever.
- Ability to work with 100% active adults and athletes who are extremely motivated to get back to exercising pain-free.
- Easy documentation: We are 100% out of network which means we do not have to cater to insurance companies with elaborate documentation standards.
- Unlimited earning potential and ability to grow within the company.
- You get to treat the patient on a full spectrum, from injury rehab to fitness/wellness.
- You get to wear comfortable, professional “athleisure” wear to work.
- Spend your downtime researching a case when you need to, or communicating directly with your clients when they have questions - instead of filling out insurance authorizations or paperwork.
- Look forward to coming to work every day - because you actually get to practice what you went to school for...physical therapy!
- Have one-on-one mentorship and training every week - no matter your experience or skill level - to practice skills and go over cases.
- Most importantly... you get to use your talents and passion (you know, the thing that made you want to become a PT to begin with) to make a REAL difference in people's lives.

Who should apply for this job:

- **Someone who is truly passionate about physical therapy and wants to make a real transformation in people's lives.**
- **Someone who is looking to work in an environment that is NOT a traditional outpatient clinic - and that is fun and feels like a family.**
- **Someone who wants to learn and be mentored - we can spend dedicated time every week just to discuss tough cases --> that means new grads and experienced clinicians, please apply! You'll learn everything you need to become a world-class therapist.**
- **Someone who wants a small clinic feel but operates with big business ideas! This job comes with benefits and plenty of opportunity for continuing education - just without the burn-out and corporate red-tape.**
- **Someone who is flexible and open to change as our practice continues to grow and evolve.**
- **Someone who is interested in learning how to incorporate strength and conditioning into your practice!**
- **Someone who wants to use a blend of sports physical therapy, injury prevention, and performance training to deliver the highest level of results to our clients.**

What our Lead PT has to say:

"Up and Running PT has the best staff, the best boss, the best patients, and the best facility and equipment. The volume is very manageable, documentation is minimal and you get to spend real, meaningful time with your patients to make adequate changes to their lives, and (bonus) they are willing to put in the work. This is the job you dream about when you are in PT school - the flexibility to address the whole person and not just the injury they have a referral for, the time to make meaningful reductions in pain and still have time left over adequate loading, and a population that actually wants to be there! I had been wondering if I had chosen the right career in my previous job - and working here confirmed that I had, I just needed the right setting! Working here will make you remember why you love being a physical therapist. There is not a better PT job out there!"- Sam Greig

If the position and our values resonate with you and you want to be part of a growing practice offering something unique to the healthcare system, please send a cover letter and resume.
