

Aquatics!!!

We are seeking an enthusiastic PT to do both aquatic and land-based PT. We are a small private owned practice that focuses on quality of care for our patients. On average our providers see 5-8 patients per day. We offer competitive pay and benefits! NO WEEKENDS are required! We have locations in both highly desirable Fort Collins and Loveland. The ideal candidate will possess a strong understanding of anatomy and physiology, with experience in creating effective care plans tailored to individual patient needs.

Join us in making a positive impact on the lives of our patients through effective rehabilitation strategies and compassionate care! Check out our website at: [Home | Aqua Dynamics PT](#)

Responsibilities

- Assess patient conditions through comprehensive evaluations, including physical examinations and medical history reviews.
- Develop personalized treatment plans that incorporate appropriate exercises, modalities, and techniques to improve patient outcomes.
- Implement therapeutic interventions focusing on rehabilitation for orthopedic conditions and other physical impairments.
- Educate patients and their families on treatment processes, home exercises, and lifestyle modifications to support recovery.
- Monitor patient progress and adjust care plans as necessary based on individual responses to therapy.
- Maintain accurate documentation of patient evaluations, treatment plans, and progress notes in compliance with regulatory standards.

- Occasionally getting in the water with a patient is needed.

Requirements

- A degree in Physical Therapy from an accredited institution.
- Valid state licensure or eligibility for licensure as a Physical Therapist.
- Strong knowledge of anatomy and physiology relevant to patient care.
- Experience in developing care plans for patients with orthopedic issues is preferred.
- Excellent communication skills to effectively interact with patients, families, and healthcare teams.
- Ability to work independently as well as part of a collaborative team focused on delivering high-quality patient care.
