Open Position:  
Physical Therapist- Pelvic Floor

The physical therapist evaluates and examines patients and develops a plan of care that promotes movement, reduces pain, restores function, and prevents disability. The physical therapist works with the patient, family members and/or other health care providers to ensure the goals of the plan of care are met and the patient outcomes are optimal. In this position, the physical therapist must also abide by all CSA policies and procedures as well as all applicable local, state, and federal regulatory requirements.

Qualifications:

- High School Diploma or equivalent
- Professional (entry-level) physical therapist degree obtained from a CAPTE-accredited physical therapist education program
- Current physical therapist license valid in the State of Colorado
- CPR Certification-Basic Life Support (BLS) provided by American Heart Association or The Red Cross

Skills:

- Interpersonal, Verbal and Written Communication Skills
- Cultural Competence
- Professionalism
- Computer proficiency with the ability to learn and use an electronic health records system
- Excellent Customer Service
- Patient Educator
- Special interest in pelvic floor dysfunction in both men and women; including the ability and willingness to perform internal pelvic floor examinations and treatment.
- Ability to discuss, evaluate, educate about and/or treat the following conditions (not all-inclusive): Urinary and Fecal Incontinence, Overactive Bladder, Interstitial Cystitis, Pelvic/Abdominal Pain, Recurrent UTIs, Painful Intercourse, Pelvic Organ Prolapse, Prostate Cancer, Bowel Irregularity, Urinary Urgency and/or Frequency, Urinary Retention and Constipation, Bowel Irregularity and Testicular Pain.
- Ability and willingness to address all diagnoses listed with patients across the lifespan and to include both genders, where applicable.
