

Lone Tree Physical Therapy is a small, well-established clinic that has been focused on amazing outcomes, not production. We treat all orthopedic cases, with about 50% of our caseload being spinal orthopedics. Our patients LOVE us...and often comment that they wish they would have found us sooner! Our clinic has been voted Best of the Best in the local newspaper year after year.

The focus of our clinic is the quality of experience. Our patients get 100% of our attention with no double booking or use of aides. We emphasize the therapist's manual skills and education in the treatment session. We also empower our patients to participate in their rehabilitation outside of the clinic with lifestyle changes and diligence with their home exercise programs.

Our therapists are expected to be amicable and inquisitive, accepting and challenging, dedicated to outcomes, and always looking to improve themselves and the clinic. They are a part of a team, encouraging each other toward a common goal.

Position Requirements:

- Colorado physical therapy license
- Experience in outpatient orthopedics, whether in job settings or clinic rotation experience
- Clear documentation of continuing education and dedication to professional excellence
- Outstanding communication and education skills with patients
- Ability to establish relationships with referral sources.
- Ability to work with a small team toward a common goal for patients and the clinic

Location: Lone Tree, CO (near Park Meadows Mall)
