

Facility: Align PT

Location: Longmont, CO

Contact: [admin@alignpt.com](mailto:admin@alignpt.com)

If you're looking to become a leader in the field of pelvic floor physical therapy and craving an opportunity for in-depth mentorship, growth, and career development, Align PT is the place for you!

**We're seeking a full-time pelvic physical therapist to join our team ASAP!**

### **About us**

Align PT is a family-owned practice widely known locally and nationally for our holistic approach to manual physical therapy. We are recognized as a leader in treating and supporting patients with endometriosis and other complex musculoskeletal, pelvic, and digestive disorders. We often see patients who haven't gotten the results they were looking for in other clinics.

As a cash-based practice, we enjoy 60-minute (sometimes longer) treatment times and effortless documentation. We get to utilize our skills and deliver unmatched patient care, without insurance reimbursement headaches.

\*This also leaves us seeing fewer patients per day and feeling energized instead of burnt out.

Our passionate team members are dedicated to the support of our patients and each other. We love what we do and we have fun doing it! We delight in a healthy work/life balance, a positive and joyful atmosphere is part of this balance and very important to us.

We understand that working solo in a clinic or one without mentorship can feel like being alone on an island. Whether you are a seasoned veteran or newer to the field of pelvic physical therapy, you won't have to go it alone. We are committed to advancing your skills with ongoing training, mentorship, and collaboration customized to enhance your strengths and encourage critical thinking. Your training will be comparable to a manual therapy clinical residency.

Future growth opportunities within the company may arise as we expand our practice to include more comprehensive care for endometriosis patients.

We also offer a generous continuing education reimbursement among other perks.

### **About you**

- At least 2 years experience in pelvic floor physical therapy (\*including internal work). *We will consider someone with less experience in pelvic therapy including a new grad, who has strong manual skills, amazing hands, and a sincere desire and passion for treating patients who have pelvic and digestive dysfunction.*
- Strong manual orthopedic skills.
- Some training/expertise in visceral manipulation, craniosacral therapy, or neural manipulation.
- Excited to specialize in supporting, advocating for, and treating endometriosis patients.
- Intuitive hands, you love using, learning, and refining your manual skills.
- Compassionate and trauma-informed.
- Teachable, open, and willing to learn.
- Desire to utilize a whole-body approach to treatment.
- Excellent communication skills.
- Team player
- Willingness to participate in company marketing events with physicians and practitioners.
- Enjoy participating in or leading live educational events in the community and/or posts on social media.

This is an extraordinary opportunity for the right person who wants to be part of something special.

**If you're ready to go all in for having a life as a practitioner that is deeply fulfilling and establishes you as a leader in the field; the details are below.**

**Job Type:** Full-time Salary: \$70,000.00 – \$100,000.00+ per year, compensation depends on experience.

**Benefits:**

- 401(k)
- Continuing education reimbursement
- Health/Dental/Vision insurance
- Flexible schedule
- Opportunities for advancement
- Paid time off

### **To Apply**
