### **Overview of Position:**

This is a Full Time (35 hour/wk) sports physical therapist position. This position also requires a dedication to personal and professional growth, healing culture, work-life balance, and building connected relationships with patients for the best care possible.

### **Full Job Description**

We are **NOT** a PT factory. Jet Physio was started out of frustration of the current healthcare system and its failures. We've been very successful in giving patients the PT experience we've always been capable of giving them.

We are also very invested in the clinicians we bring on board, and help every clinician's growth to be a respected and influential PT in our community.

Be a huge part of the Jet Physio culture that is **changing healthcare**. We do physical therapy the right way - one-on-one with our patients, no overwhelming caseload, no insurance headaches, community outreach, and an opportunity to REALLY connect and help your patients the way you want to.

We also emphasize proper work-life balance. We created a system that gives you fulfillment in your job without burnout, so you can enjoy more personal time with your family, friends, and loved ones.

Be a part of something amazing, have fun while doing it, feel fulfilled by your work, and show the world what PT is meant to be.
